PROFESSIONAL SUMMARY

Innovative Full Stack Developer with 5+ years of experience designing and implementing enterprise-grade SAP-like systems. Expert in Django, React, React Native, and modern web technologies. Proven track record of building scalable microservices architectures, real-time applications, and comprehensive business management solutions. Specialized in finance, HR, inventory management, and CRM systems with strong focus on performance optimization and user experience.

TECHNICAL SKILLS

Backend Development

Django, Django REST Framework, Python, PostgreSQL, Redis, Celery, JWT Authentication, WebSockets, Channels

Frontend Development

React, TypeScript, Vite, Tailwind CSS, Ant Design, React Query, Zustand, Chart.js, Framer Motion

Mobile Development

React Native, Redux Toolkit, React Navigation, Native Modules, Camera Integration, Geolocation

DevOps & Tools

Docker, Git, GitHub Actions, Nginx, Gunicorn, Linux, AWS, API Documentation, Testing

Databases & Analytics

PostgreSQL, Redis, Data Modeling, Query Optimization, Analytics, Reporting, Data Visualization

Enterprise Solutions

ERP Systems, CRM, Finance Management, HR Systems, Inventory Management, Real-time Notifications

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer & Solutions Architect

Athenas Technologies | Enterprise Solutions

2022 - Present

- Architected and developed a comprehensive SAP-like enterprise system serving 500+ users across multiple business domains
- Built scalable Django backend with 15+ microservices including Finance, HR, Inventory, CRM, and Analytics modules
- Developed responsive React frontend with TypeScript, achieving 95% user satisfaction and 40% faster load times
- Created React Native mobile app for employee attendance with face recognition and geolocation features
- Implemented real-time notifications system using WebSockets and Celery, improving user engagement by 60%
- Designed and optimized PostgreSQL database schemas, reducing query response time by 50%
- Integrated advanced analytics and reporting features with interactive dashboards and data visualization
- Established CI/CD pipelines and deployment strategies, reducing deployment time by 70%

Full Stack Developer

Tech Solutions Pvt Ltd | Software Development

2020 - 2022

- Developed and maintained 10+ web applications using Django, React, and modern JavaScript frameworks
- Collaborated with cross-functional teams to deliver projects 25% ahead of schedule
- Implemented RESTful APIs and integrated third-party services, improving system interoperability
- Optimized application performance and implemented caching strategies, reducing server load by 35%
- Mentored junior developers and conducted code reviews, improving team code quality by 40%

Junior Software Developer

StartupTech Solutions | Web Development

2019 - 2020

- Developed responsive web applications using HTML5, CSS3, JavaScript, and Python
- Participated in agile development processes and contributed to requirement analysis
- Implemented user authentication systems and database integration
- Collaborated with UI/UX designers to create intuitive user interfaces

KEY PROJECTS

Enterprise SAP System

Comprehensive business management platform with integrated modules for Finance, HR, Inventory, CRM, and Analytics. ^{2022 - Present}

Django

React

TypeScript

PostgreSQL

Redis

Celery

WebSockets

Docker

- Multi-tenant architecture supporting unlimited companies and users
- Real-time dashboard with advanced analytics and reporting
- Automated invoice generation and financial reporting
- Employee management with attendance tracking and payroll
- Inventory management with barcode scanning and stock alerts

Employee Attendance Mobile App

React Native mobile application for employee attendance management with biometric authentication. ²⁰²³

React Native

Redux Toolkit

Face Recognition

Geolocation

Camera API

- Face recognition-based attendance marking with 99% accuracy
- GPS-based location verification for remote work tracking
- Offline capability with data synchronization
- Real-time notifications and leave management

EDUCATION

Bachelor of Engineering in Computer Science

SACS MAVMM Engineering College

^{2015 - 2019}

Relevant Coursework: Data Structures, Algorithms, Database Management, Software Engineering, Web Technologies

Higher Secondary Education

Government Higher Secondary School

^{2013 - 2015}

Computer Science Stream with Mathematics and Physics

ACHIEVEMENTS & CERTIFICATIONS

- ✓ Successfully delivered 20+ enterprise-level projects with 100% client satisfaction
- ✓ Reduced system response time by 50% through database optimization and caching strategies
- ✓ Led development team of 5 developers in building scalable microservices architecture
- ✓ Implemented security best practices achieving SOC 2 compliance standards
- ✓ AWS Certified Developer Associate (In Progress)
- ✓ Django REST Framework Specialist Certification
- ✓ React Advanced Patterns and Performance Optimization
